

Wheel Nut Bolting Solutions

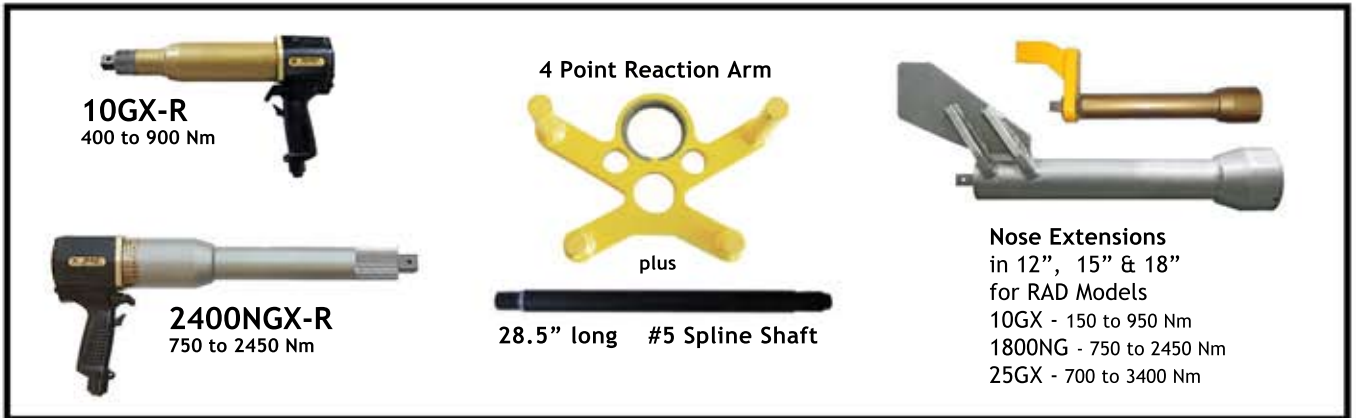

Wheel nut bolting for light and heavy duty applications.

Extended drive and reaction for safe and ergonomic bolting.

Ideal for recessed wheel nut studs where tool clearance is a problem.

Removable custom reaction arms designed to fit virtually any wheel configuration.

The NX-GX Kit was designed with flexibility in mind. Complete with 3 different reaction arms and a nose extension for hard-to-reach areas, the NX-GX Kit is a go anywhere tool capable of a variety of applications.

All RAD Tools supplied with Cradle, Hose & Case
